

Lab Assignment-5

Initially created the login page with having login button and gmail signin button. After clicking on the login button with valid credentials it will redirect to the another page or you can also login using the gmail credentials. After successful login it will redirect to the home page where you can search for the most recent Youtube viral videos. I have used the following references for my code

https://developers.google.com/youtube/v3/code_samples/javascript#search_by_keyword

<https://console.developers.google.com/home/dashboard?project=concrete-fabric-121118&pli=1>
